## **ADELAIDE BRIGHTON STRENGTHENS ENERGY SUPPLY PORTFOLIO**

Adelaide Brighton Ltd (ASX:ABC) advises further strengthening of its energy supply portfolio with the signing of new gas and electricity contracts in South Australia.

Adelaide Brighton has entered into an agreement with Beach Energy Limited (ASX: BPT, "Beach") for the supply of gas to its South Australian operations.

Adelaide Brighton has also entered into an agreement with Infigen Energy Limited (ASX: IFN) for the supply of its electricity requirements to the Birkenhead and Angaston cement manufacturing plants and Klein Point Quarry on the Yorke Peninsula in South Australia.

The supply agreements allow Adelaide Brighton to continue its focus on energy efficient and sustainable operations in South Australia. Adelaide Brighton has a proactive strategy designed to manage energy costs and operating risks through measures that include:

- A portfolio approach to energy supply and procurement benefits;
- Consumption management and operational efficiency;
- The aim of obtaining 30% of energy supply from alternative fuels in the medium term;
- Use of alternative cementitious materials in place of more energy intensive products;
- Cost recovery through vertical integration and long term customer relationships; and
- Financial strategies, where they add value for shareholders.

Adelaide Brighton CEO and Managing Director, Martin Brydon, said "The new agreements with Beach and Infigen provide our South Australian operations continued certainty of energy supply at competitive prices and underpin our leading position in this important market".
